MEMORANDUM

SUBJECT: Soviet Pressure on Iran

25X1D  
25X1D

25X1C The Soviets probably are trying to push the Iranians to accept the return of Iranians who left their country in 1946 and 1953 when the pro-Soviet Tudeh Party and the Azarbayjani Democratic Party were repressed by the Shah. According to [REDACTED] over 5,000 members of the ADP fled Iran in 1946. [REDACTED] reports that the Soviets encouraged the exiles to keep their Iranian citizenship. The Shah was pressed by USSR to allow these exiles to come home--he allowed some to return but carefully monitored their actions and put many in prison.

25X1C

25X1A Given the poor status of Iran's security forces, the Soviets have probably already infiltrated many of their Tudeh and ADP assets into Iran across the border near Baku. Nonetheless, the Soviets almost certainly wish to infiltrate more agents into Iran and any mass return of exiles would doubtless include a large number of Communist agents and sympathizers. [REDACTED]

25X1A We doubt that the Khomeini government will agree to the Soviets demand for repatriating the Communist exiles. Tehran has repeatedly demonstrated a willingness to refuse
